ouncil approve the application to rezone the subject property fron ow Density Residential Zone (R3.S.330) with a special exception to		
ermit a duplex and a reduced frontage, to Low Density Residential		
one (R3.S.330) with an amended special exception to permit a		
riplex and 3 parking spaces in the exterior side yard; And that the egal Department be directed to prepare the necessary by-law to		
egal Department be directed to prepare the necessary by-law to ffect this approval.		

Resolved that the report of the Senior Planner dated 2019 04 01 concerning rezoning Application A-8-19-Z be received and that Council approve the application to rezone the subject property from Parks and Recreation Zone (PR) to High Density Residential Zone (R5.S) subject to the following special exception: 1. That the proposed apartment building not exceed 12 storeys. 2. That the maximum required lot coverage for the apartment building be reduced from 35% to 33%. Further that the subject property be deemed subject to Site Plan Control, pursuant to Section 41 of the Planning Act; And that the Legal Department be directed to prepare the necessary by-law to effect		I did not vote on this item because the proponents are clients of my law firm	Passed
this approval. Resolved that the report of the Senior Planner dated 2019 04 01 concerning application A-9-19-Z.OP be received and that both Official Plan Amendment No. 223 as attached and the amendment to Zoning By-law 2005-150 as attached be approved; And that the Legal Department be directed to prepare the necessary by-laws to effect this approval.	YEA		Passed
WHEREAS many traffic signals in Sault Ste. Marie have advanced signals for the better movement of traffic during peak traffic hours; and WHEREAS many drivers have experienced the situation where no other vehicles are at the intersection, and the advanced traffic signal is illuminated; and	YEA	Mover: M. Shoemaker Seconder: M. Scott	Passed
WHEREAS during off-peak traffic hours, advanced traffic signals serve only to delay vehicles for a longer period of time at intersections; and WHEREAS delaying vehicles at intersections when such a delay is			
unwarranted adds to the carbon emissions that are released into the atmosphere;			
NOW THEREFORE BE IT RESOLVED THAT staff report on the feasibility of disabling advanced traffic signals at all or mostly all of the intersections in the City that have advanced signals from 9 p.m. nightly until 6 a.m. the following morning. WHEREAS, the steel supply industry employs more than 3,000 employees and represents billions of dollars of economic activity in our community and	YEA	Mover: M. Shoemaker Seconder: R. Niro	Passed
our community; and WHEREAS, across Canada the steel industry employs more than 25,000 middle-class workers, and supports and additional 100,000 high quality jobs from coast-to-coast-to-coast; and			
WHEREAS, these jobs and future economic growth are being threatened by a surge of off-shore imports resulting from excess global capacity, and the diversion of imports resulting from changes in trade policy around the globe, including Section 232 measures in the United States; and			
WHEREAS, the federal government recognized the potential injury caused by these imports to the steel industry and implemented provisional safeguard measures in October 2018 with the intent of stabilizing the Canadian steel market; and			
WHEREAS, these provisional safeguard measures are in place for a 200-day period and are set to expire on May 13, 2019; and			
WHEREAS, these provisional safeguard measures have had the effect of preventing a continued surge of off-shore imports from damaging the domestic steel industry; and			
WHEREAS, the Canadian steel industry, including both Algoma Steel Inc. and Tenaris Algoma Tubes, recently participated in hearings at the Canadian International Trade Tribunal (CITT), and presented the need for continued safeguard measures beyond May 13, 2019; and			
WHEREAS, continued safeguard measures are vital affording the domestic steel industry the necessary market stability to continue to grow and create high quality, middle class jobs in our community;			
BE IT RESOLVED THAT, Sault Ste. Marie City Council support the request of the Canadian steel industry for the federal Minister of Finance to impose final safeguard measures for all seven steel products subject to provisional safeguard measures;			
BE IT FURTHER RESOLVED THAT, Sault Ste. Marie City Council support the request that the final safeguard measures be reflective of the remedies requested by the Canadian steel industry during the safeguard hearings held by the CITT in January 2019.			

WHEREAS Sault Ste. Marie's policy during capital road works projects is to remove unwarranted traffic signals during the reconstruction; and	YEA	Mover: M. Shoemaker Seconder: P. Christian	Passed
WHEREAS the removal of a traffic signal generally leads to an adjustment period for motorists who frequently travel the area to familiarize themselves with the new traffic control pattern; and			
WHEREAS when traffic signals are removed that control all four corners of an intersection, they are typically replaced by a stop sign that only controls traffic at two of the four corners of an intersection; and			
WHEREAS it is not currently Sault Ste. Marie's policy to include a flashing red light above the traffic signal as a default at the time of the change from a traffic signal-controlled intersection to a stop sign-controlled intersection; and			
WHEREAS a flashing red light above a stop sign could be an effective way to assist motorists who frequently travel an area where there has been a change in the traffic control pattern to familiarize themselves with the new traffic control pattern;			
NOW THEREFORE BE IT RESOLVED THAT the Public Works and Engineering Services be requested to amend the current policy for major capital works to provide that when unwarranted traffic signals are removed from an intersection, the stop signs that are installed at the intersection shall have flashing red lights above them for a period of not less than one (1) year.			
Whereas the City requires residential developers to provide a letter of credit when they begin a development; and	YEA		Passed
Whereas it can be challenging for a smaller residential developer to provide a letter of credit prior to beginning a development; and			
Whereas the City has accepted performance bonds but does not generally do so for residential developments; and			
Whereas smaller developers who may not be able to offer a line of credit may be able to post a performance bond; and			
Whereas the City wants to make every reasonable effort to be			
development-friendly; Now Therefore Be It Resolved that City Council requests staff to			
consider accepting performance bonds in lieu of letters of credit and report back to City Council on the appropriateness and advisability of doing so.			
Whereas in March of 2018, Autism Ontario released the latest	YEA		Passed
statistics regarding autism spectrum disorder and reported that the rate of the disorder is 1 of 66 live births. Autism is a pervasive			
spectrum disorder, marked by difficulty in social interactions, which			
does not discriminate between race, culture, socio-economic status or religion. The rate of autism is higher among males (5 times more			
likely) than females. Children with autism become adults with autism and there is no cure; and			
Whereas as a Northern community we recognize that the number of			
children and adults who have been diagnosed on the spectrum or who are awaiting a diagnosis has greatly increased. The initial			
pathway to services is through the Ministry of Child and Youth			
Services, whose offices are in regional areas that provide mainly administrative services, not actual early intervention; and			
Whereas early diagnosis can lead to early programming and success			
for individuals and families affected by autism disorders; and Whereas neither the Provincial nor Federal governments have			
specific autism strategies, leaving many families and individuals without access to the services they require; and			
Whereas the City of Sault Ste. Marie values all citizens and wants			
everyone to have equal opportunities for success; Now Therefore Be It Resolved that the Ontarians with Disabilities			
Accessibility Advisory Committee be requested to strike a sub-			
committee dedicated to working with community partners to develop a municipal autism strategy to assist families, caregivers and			
individuals dealing with an autism diagnosis and to create a roadmap for the autism community in shaping the future			
development of our community.	\/= -		
Resolved that all By-laws under item 11 of the Agenda under date 2019 04 01 be approved	YEA		Passed
